About us

Hotel

The Gorgonia Beach Resort is an Italian company based on Lake Garda near Verona. We opened the hotel on the Red Sea in 2008 with the aim of combining a first-class holiday experience with sustainability. We know exactly what our mainly European guests need and meet them with Italian

hospitality. The many regulars who return to the Gorgonia Beach Resort year after year are the best confirmation of our approach. Our qualities as a host in the luxury hotel industry and our commitment to sustainable development have received numerous international awards.

Our hotel complex is distinguished by white two-story buildings in the style typical of the country, which are picturesquely lined up next to one another in a luscious garden and pool area. With the desert in the back and the sea in plain view, our resort offers a fantastic starting point for a variety of activities on water and land.
